

Rob Hearne Consulting is committed to be at the forefront of the Quantity Surveying profession in minimizing the impact of its activities on the environment and using resources in a sustainable way.

The strategy to be adopted in achieving this is:

Compliance with all relevant environmental legislation.

- Rob Hearne Consulting will produce minimal waste and ensure the safe disposal or destruction of waste where reuse or recycling is not viable.
- Rob Hearne Consulting will;
- demonstrate a commitment to the prevention of pollution and adverse impacts on the environment.
- Minimize vehicle toxic emissions through the selection and use of fuel efficient and electric vehicles, minimize travel and adopt car sharing where practicable.
- Actively promote recycling both internally and amongst clients and suppliers.
- Source and promote a product range to minimize the environmental impact of both production and distribution.
- Monitor and measure its impact on the environment and set targets for continual improvement.
- Constantly seek to improve its environmental performance and will look to spread the message of sustainable living and environmentally friendly behaviour to all its clients
- Minimize consumption of resources and encourage clients to do the same
- Encourage suppliers to minimize their environmental impacts and seek to only do business with companies that meet its environmental criteria
- Support the local economy through purchasing goods locally where possible.
- Regularly monitor the energy it consumes and the wastes it produces and ensure that progress is made towards achieving environmental performance improvement.
